8TH INTERNATIONAL CONFERENCE PARADIGM SHIFT TRANSFORMATION INDUSTRY : 4.0 ISSUES & CHALLENGES

www.kcinstances.com

Publication Opportunity

About KCGI

KC Group of Institutions was established with four branches viz Computer Science, Electronics, Mechanical, and Electrical with an intake capacity of 60 students each. The responses were overwhelming and within a short span of one year. K.C. College of Engineering & Information Technology carved a niche among its competitor. The college has the best infrastructure and offers admission to the department of Ayurveda, Hotel Management, Education, Pharmacy, Management, Agriculture, Animation , and film Technology .

About University

The Warsaw University of Life Sciences is the oldest agricultural and natural science university in Poland, its origins dating back to 1816. The university offers 40 fields of study: from natural science and technology to veterinary medicine, and social and management studies. There are nearly 16,000 students in full-time, part-time, doctoral, and post-graduate study courses as well as under international student exchange. Management Institute was established in 2019 and focuses on research related to social media, trust, CSR, IoT, and marketing.

About Conference

The term Industry 4.0 encompasses a promise of a new industrial revolution—one that marries advanced manufacturing techniques with the Internet of Things to create manufacturing systems that are not only interconnected, but communicate, analyze, and use information to drive further intelligent action back in the physical world.

About TGAP-UK

Tradepreneur is an international platform for the exchange and presentation of expert opinions, novel ideas, and groundbreaking research findings in the field of theoretical and practical experiences in academia and industry. Its aim is to provide informed research practices on key educational and industry issues in an accessible manner. This platform intends to promote the institutions, teams, and individuals that place quality research at the top of their agenda and work in collaboration with others to achieve their goals. Setting the stage for a global research network and bringing a difference in society is our key mission. This platform brings together academicians, researchers, and research scholars to exchange and share their experiences and research results about all aspects of science, social sciences management, economics, and engineering.

Call for paper

Track I: Engineering

- Engineering leadership, governance, and influence
- ME/EE/Civil Engineering/Mechatronics Engg/
- Computer Application/Artificial Intelligence /Robotic

Track II: Management

- Marketing / Finance / HR / IB / Economics / Entrepreneurship/
- International Trade/Agricultural Economics/ Agriculture & Food
- Sciences/ Sustainable Development

Track III: Tourism & Hospitality

- Domestic Tourism /Diverse social and cultural backgrounds
- Political and social aspects of Tourism /Cultural and moral aspects
- Development and trends /Regional development
- Sustainable development /Tourism Modelling and forecasting
- Artificial Intelligence (AI)/Augmented Reality (AR),

Track IV: Entrepreneurship

- Gender and entrepreneurship
- Family business
- Entrepreneurship education including teaching case studies
- Micro and small enterprise response to crises: for instance response to the current pandemic, climate change, natural disasters
- Digitalization of MSMEs
- The social role of MSMEs

Track V: Pharmaceutical Sciences

- Clinical Pharmacology/Urticaria, psoriasis/Vitiligo
- Drug discovery and development interface /Quality control, GMP,
- Pharmaceutical Technology, control release, and drug targeting
- Dosage form design /Biopharmaceutical, Pre-formulations

Track VI Economics

- AI in Global Economy
- AI in The Renaissance and Reformation
- AI in Renaissance in Europe: Meaning, Causes, and Results
- AI Politics and economics shape the Renaissance in Economic bounce back which shape
- AI in New ideas associated with the Renaissance
- AI in Art reflects new Renaissance ideals
- Recession Shapes & Recovery
- Role of Artificial Intelligence in Agricultural
- Machine Learning in Agricultural and applied sciences

- Artificial Intelligence in Farming, Agriculture & food Industry
- AI Industry: Identifying Opportunities for Foreign Investment,
- Trade and Supply Chain

Track VII Robotic Automation

- Design of Competency Models in the Workforce Management system
- Workforce Design of Competency Models
- Manpower Data-driven Skills Framework
- Workforce Data-centric AI Models
- Personnel Role-driven Skills Frameworks
- Workforce HCM AI-based Applications
- Workforce Data Analysis and Visualization
- ML Prediction of Workforce Performance
- Data-centric AI Frameworks and Technologies
- Workforce ML Models and DL Frameworks
- Workforce Data Mining and Cloud Storage
- Workforce - Robotic Process Automation
- Cyber security Techniques and application
- Data Analysis Tool Application
- Application and Adoption of Robotic Process Automation for Smart Cities
- Robotic Process automation in the business/
- Service sector (Manufacturing sector/production sector/supermarkets/ education sector/ Hotels/ Travel and Tourism/ aviation sector/distribution sector/medical sector/ warehouses)
- Data-Centric AI Solutions and Emerging Technologies in the Healthcare Ecosystem
- Health care Infrastructure Design and Principal/ Intelligent Computing and IoT
- ML & DL Model for Disease/Forecasting System for medical
